

The Group Stages:

- 1) During one match with no substitutes, how many football boots will there be on the pitch at once?
- 2) How many teams qualify for the knockout stages?
- 3) If Mohammed Salah plays all three group matches for Egypt and one knockout game which goes to extra time - how many minutes will he have played?
- 4) If England get knocked out at the semi final stage, how many matches will they have played?
- 5) Look closely at this football pitch: How many rectangles do you see?
